

# How to find the date on Disneyland Ticket Books

Locate the back cover of the ticket book. This shows the price and number of tickets in the book.

The **INSIDE** of the back cover of the ticket book is where you will find a list of attractions, like the one shown below. Look at the **very bottom**, in the **center** you will find a “*date code*” just to the left of the words “Globe Ticket”. “495” is printed on some books, this is **not** a date code, it’s a Globe Ticket code.

*Date Codes* are 3 or 4 digits. They represent the **Year** then the **Month**. “**May 1976**” would be “**765**” and **April 1964** would be “**644**”. More rare are four digit codes like “**October 1966**” as “**6610**”.
